TOWN WARRANT

To the inhabitants of the Town of Raymond in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Odd Fellows Hall in said Raymond on Tuesday, the eighth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To hear the report of the budget committee and act thereon.

3. To raise such sums of money as may be necessary to defray all town charges for the ensuing year and make appropriation of the same.

4. To fix compensation for collecting taxes for the year ensuing.

5. To see what sum of money the town will vote to raise and appropriate for town maintenance including snow.

6. To see what sum of money the town will vote to raise and appropriate for street lighting.

7. To see what sum of money the town will vote to raise and appropriate for Memorial Day.

8. To see what sum of money the town will vote to raise and appropriate for the Fire Department including forest fires.

9. To see what sum of money the town will vote to raise and appropriate for Dudley-Tucker Library.

10. To see if the town will vote to authorize the Selectmen to borrow money in the anticipation of taxes.

11. To see what sum of money the town will vote to raise and appropriate for W. P. A. Projects.

12. To see if the town will vote to raise and appropriate such amounts for State Highways as recommended by the New Hampshire State Highway Department.

13. To see if the town will vote to raise and appropriate \$1,000.00 toward payment of debt.

14. To see if the town will vote to make a discount of 3 per cent on all property taxes paid on or before August 1, 1938.

15. To see what sum of money the town will vote to raise and appropriate for the Water Department.

16. To see what sum of money the town will vote to raise and appropriate for tarring Long Hill and part of Gould Street.

17. On request of Iber Holmes and twenty-two others, the following article be inserted in the town warrant: To see what sum of money the town will vote to raise and appropriate for the purpose of purchasing land and the establishment of a town dump thereon.

18. On request of Asbury Small and twelve others: To see if the town will vote to raise and appropriate \$50.00 per year for the purpose of having a town dump over a period of five years. Same is situated on Epping Road just east of the Texas filling station and will be taken care of by the property owner.

19. On request of Allen Robinson and twenty-one others: To see what action the town will take in regards to the continuation of the Manchester road, so-called, to raise and appropriate money for same.

20. To see if the town will vote to raise and appropriate \$1,000.00 for repairs to be made on the shoe shop occupied at present by the Bourque Shoe Co.

21. To see what action the town will take in regard to the Municipal Budget Act as passed at our annual town meeting, March 12, 1935.

22. To transact such other business as may legally come before the meeting.

Given under our hands and seal, this twenty-first day of February, in the year of our Lord nineteen hundred and thirty eight.

CHARLES GILE,
FRANK CORSON,
AI S. WELCH,
Selectmen of Raymond.

	<hr/>
Total receipts,	\$6,289 56
Deficit for year of 1937-38,	55 64
	<hr/>
	\$6,345 20

Your water commissioners for the year 1937 and 1938 report a deficit of \$55.64 compared with a deficit in the year 1936 and 1937 of \$723.53. All of our bills are paid and if the shoe shops had worked in the last quarter we would have shown a profit rather than a small deficit.

However, these conditions are something over which your water commissioners have no control and when there is no work we do not feel like pushing our customers for money. For your information we would say that this year has cost a lot of money, both to paint the water tank and for extra help to get the books into a satisfactory condition suitable to the Public Service Commission of Concord, N. H., but we would say that we are the first public utility in New Hampshire to have our accounts accepted by the Public Service Commission and while the cost has been quite large, we felt it was worth the investment as it had to come sooner or later and had been demanded several years previous but not complied with.

While we have not itemized out all these different items for the year due to the expense of printing same, we would say that each article which was charged as expense during the year is on a book which is available to every taxpayer of the town at any time and we would appreciate it if you care to look at same to come into the store of the Raymond Coal, Grain, & Roofing Company where these accounts are available.

In the town warrant this year we are asking for a separate appropriation of \$1,000.00 to repair the town shop. During the year your commissioners have had several conferences with Concord officials and they were very kind in granting our request to let the building go as it is until the March town meeting. It is imperative to the town of Raymond that this money be appropriated to keep this building in condition suitable to the building inspectors at Concord, as they claim that there are many things to be done before they will accept it.

The figure set at \$1,000.00 is very low for what has to be done, but your commissioners feel that they can do practically all the work for this sum and ask at the town meeting that you appropriate this amount of money. If not, this building will be condemned and we will lose one of the finest firms that we ever had doing business in the town of Raymond.

Hoping that our report will be satisfactory to you as we have done the best we could under the conditions presented, we are,

RAYMOND WATER COMMISSIONERS,

Asbury Small, Chairman.

REPORT OF HIGHWAY AGENT

Expenditures and savings for the Year

During this past year we have cut a considerable amount of bushes. I hope this coming year to clean all roads of bushes.

I do not know of any great expense for the coming year as the tractor and equipment are in good shape and we have enough grease for at least two years. Thus I hope we can spend a little money this coming year for blowing rocks along the sides of the roads which are apt to damage the plow when plowing snow.

Savings: During this past year I have not charged for garage rent, which is a saving of \$36.00 a year.

This winter Mr. Marcotte and I have cooperated on plowing snow so as to give the best of service. This will continue for the coming winter.

I appreciate the cooperation that the Selectmen and citizens of the town of Raymond have given me during the past year, and which will be greatly appreciated in the future.

LYMAN R. HAMMOND,
Road Agent.

THE REPORT OF RAYMOND HIGH SCHOOL

To the Superintendent and School Board:

The Senior High School membership at the opening of school was 64. Since then 6 students have entered while 4 have left, leaving the enrollment at present 66. In the Junior High School the opening enrollment was 46. Two have entered and five have withdrawn making the present enrollment 43 or a total present enrollment of 109. This is slightly more than last year as the Junior High School is larger. The Senior High School enrollment includes 34 tuition pupils from the towns of Candia, Chester, Deerfield, Lee, Nottingham and Sandown. It is interesting to note that at our first basketball game the starting teams represented seven towns. In spite of various epidemics, our attendance has been fairly good. The number of tardinesses has been lower than usual up to this time of the year.

Our Agriculture Department has taken part in inter-scholastic contests placing third at Hopkinton Fair in combined competition in judging and farm and shop products, third in the Egg Contest at the New Hampshire Egg and Chick Show and second in the State judging contest at the University of New Hampshire. These competitions involved from 13 to 16 schools. Albert Sprague was one of three New Hampshire boys to compete in the Dairy judging contest at Springfield Fair last fall. In order to complete our shop equipment a power saw is needed and a wood lathe would be very useful.

In the field of physical education, we have attempted to provide some form of athletics for as many pupils as possible. The Junior High School students, under the direction of Mr. Sullivan and Miss Britton, have had one period a week of exercise and games in

the open air whenever possible. The basketball teams, thanks to the Odd Fellows, were no longer orphans. The winter sports team has competed three times, winning the meet at Raymond by one-third of a point over Weare High School, with Pembroke Academy and Alton High School also competing, and placing third at Alton and second at Weare. In each case we competed with five schools.

The High School has presented a minstrel show to secure funds for magazines and for the Athletic Association, and four one-act plays for the benefit of the Senior Class. The library is well supplied with magazines. Mr. Rowlands presented us with a fine set of reference books on "American History."

The debating team is working on the question "Resolved: That the several states should adopt a Unicameral system of legislation." Three members of last year's team, which finished second in the State League, are members of this year's team.

In conclusion we wish to thank the parents and townspeople for their support in all our activities. Our basketball games and our Senior plays were especially well supported. It is to be desired that more parents visit school and attend our school socials as this would result in that much needed cooperation between teachers, parents, and students which is needed to make a truly successful school.

Respectfully submitted,

LAURENCE P. BAGLEY,

Headmaster.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Raymond:

There is presented herewith my ninth annual report. It deals chiefly with changes in the staff of teachers, age-grade enrollment, special activities, and buildings and equipment.

Teacher Changes

By the withdrawal of Mrs. Helen M. Martin and Mrs. Muriel P. Seavey, we sustained the loss of efficient teachers in the intermediate and primary grades respectively. For eight years Mrs. Martin taught large classes in the fifth and sixth grades, while Mrs. Seavey was for four years teacher in the second grade room.

Mr. Neil V. Sullivan of Manchester was selected teacher of grades five and six. He is also assistant principal of the first six grades. Mr. Sullivan completed in 1936 the three-year elementary course at Keene. The following year he taught a large rural school in Glencliff. He is well qualified to direct physical training and playground activities.

Immediately before the opening of school in September Miss Ann B. Tankard of Berlin was chosen to succeed Mrs. Seavey in the second grade. Miss Tankard completed in 1931 the three-year elementary course at Keene. She later taught in the schools of East Swansey, and for the past four years taught the first and second grades in North Woodstock.

Age—Grade Enrollment

For the past two years there has been a gradual decrease in the number of tuition pupils. The total enrollment, including elementary and high school pupils, dropped from 290 to 276. In the same period

definite improvement of 2.6 points was made in the regularity of attendance, and of 1.5 points in the percentage of promotions. The number of tardinesses was reduced from 1.4 to .7 per pupil.

As a result of recent state legislation, pertaining to transportation, a study has been made this year of the number of under-age as well as over-age children in the elementary grades which include the junior high school. The following table shows that the Raymond Schools represent closely the average of the Supervisory Union comprising six towns.

Number of Raymond Children

Grade	Under-age	Normal-age	Over-age
1	0	33	3
2	0	18	2
3	0	9	18
4	1	11	8
5	0	9	6
6	0	7	14
7	3	12	9
8	0	11	8
<hr/>			
(Raymond) Totals	4 (2.2%)	110 (60.4%)	68 (37.4%)
(Union 53) Totals	22 (2.1%)	621 (60.4%)	385 (37.5%)

Over-ageness in Raymond predominates in the third and sixth grades. The added expense in dollars and cents incurred by a child, who has to remain in school an extra year, is approximately \$4.00, which represents the cost of textbooks, supplies, per capita tax, and occasionally transportation. Measured in terms of the child's discouragement, broken initiative, and sense of defeat the cost is greater. To obviate to some degree retardation in the primary grades, the Superintendent recommends that the first grade teacher, who has become familiar with the needs of her individual pupils, be advanced to the second grade with them. Thus on the alternate year the second grade

teacher would be assigned the incoming group of first grade children.

Special Activities

Under this department your attention is directed to the printed reports submitted by the headmaster, and the teacher of home economics, the instructor in manual training, the school nurse, and the attendance officer.

This year is the first time that the work of the home economics department has been organized to meet in full the regulations of the George-Deen Act of Congress. Twenty-one periods a week are devoted by the teacher to class work and conferences. Each girl also devotes two hours a week to an individual home project. At least twice a year these projects are personally inspected by the teacher. Under this organization the school district is reimbursed from federal funds for a share of the teacher's salary and traveling expenses.

It is with regret that the school lunch service has to be discontinued. The task of preparing and serving the lunches attained such proportions, through the patronage of a hundred pupils, that the prescribed work of the domestic science classes could not be properly completed.

Particularly valuable and deeply appreciated was the donation of funds by several local organizations, which made possible the dental clinic in April of 1937. Dr. R. H. Bethell of Manchester treated eighty-three children, 62 of whom received full care. Fifty-eight children paid the full cost of their work, five more paid part cost.

The annual Union Spelling Contest, held in Pembroke on May 21, was won by the Raymond team, spelling correctly 149 out of 150 words. The Candia

and Hooksett teams were tied for second place, spelling correctly 148 words. The winning team from Raymond included Muriel Welch, grade VII, Theresa LaCouture, grade VI, and LeRoy Fogg, grade IV. For the present year the trophy cup is held by Raymond. It becomes the permanent possession of the town winning it three times.

Music instruction in our schools has been limited by the lack of adequate facilities and sufficient funds to employ a trained supervisor. The foundation of a music course must be laid in the lower grades and the instruction so systematized that definite aims may be attained throughout successive grades and in the high school. Where music can be systematically supervised and taught, no feature of school work contributes more to the recreational life and enjoyment of the community. An appropriation for the employment of a trained supervisor would be money well invested.

This year your teachers joined with some thirty others from neighboring towns in a study of the standards used in marking and reporting pupil progress in both habits of social adjustment and school subjects. As a result a more intimate and specific type of report has been adopted in the first and second grades. This follows closely the form in use in the primary grades of Grosse Pointe, Michigan. Parents are asked not only to examine and sign these reports but also to indicate and return to the teacher their personal observations and suggestions. For grades three to eight a completely new form of report card has been prepared and adopted. The system of marking allows more emphasis to be placed upon the improvement in the individual's achievement than on a mere comparison of the individual with the achievement of the class. The use of such report cards anticipates that during the year at least one visit will be made by the teacher to each home represented in her school.

Buildings and Equipment

During the summer the outside of the main building and cottage annex were repainted. Two coats of red were applied to the front of the North wing. One coat of red was applied to the remaining walls, and two coats of finish paint were used. Material and labor were contracted by the Raymond Coal, Grain, and Roofing Company.

Interior repairs were made by the janitor. These included the repainting of all corridors, varnishing of woodwork and repainting of manual training room.

Ten "Duo-Roll" window shades were installed in the two classrooms at the front of the building.

The four oldest typewriters were exchanged for two modern Royal and two new Underwood machines. A "Ditto" duplicating machine recently replaced the hectograph pans in use in several rooms.

An eight-inch electric blower has just been installed in the chimney of the forge shop. This is designed to draw the smoke from the forge and prevent it entering and blackening the contents of the manual training room above.

Official notice has just been received from Washington stating that Raymond's P. W. A. application, Docket N. H. 1082, for a federal building grant of \$15,885.00 had been rejected. Included in the plans for an addition to the main building were the improvements of heating facilities and greater fire protection.

In the absence of federal funds to procure such protection, it is urged that the district make appropriation for a system of automatic fire signals.

In Conclusion

Appreciative acknowledgment is here made of the contribution of \$41.22 just received from the Ray-

mond Field Day Committee of 1936 with the request that this sum be administered through the Raymond P. T. A. for the benefit of school children. This is a happy example of those intimate relations which a better understanding of objectives develops between communities and their schools.

Respectfully submitted,

GEORGE H. HARMON,
Superintendent.
